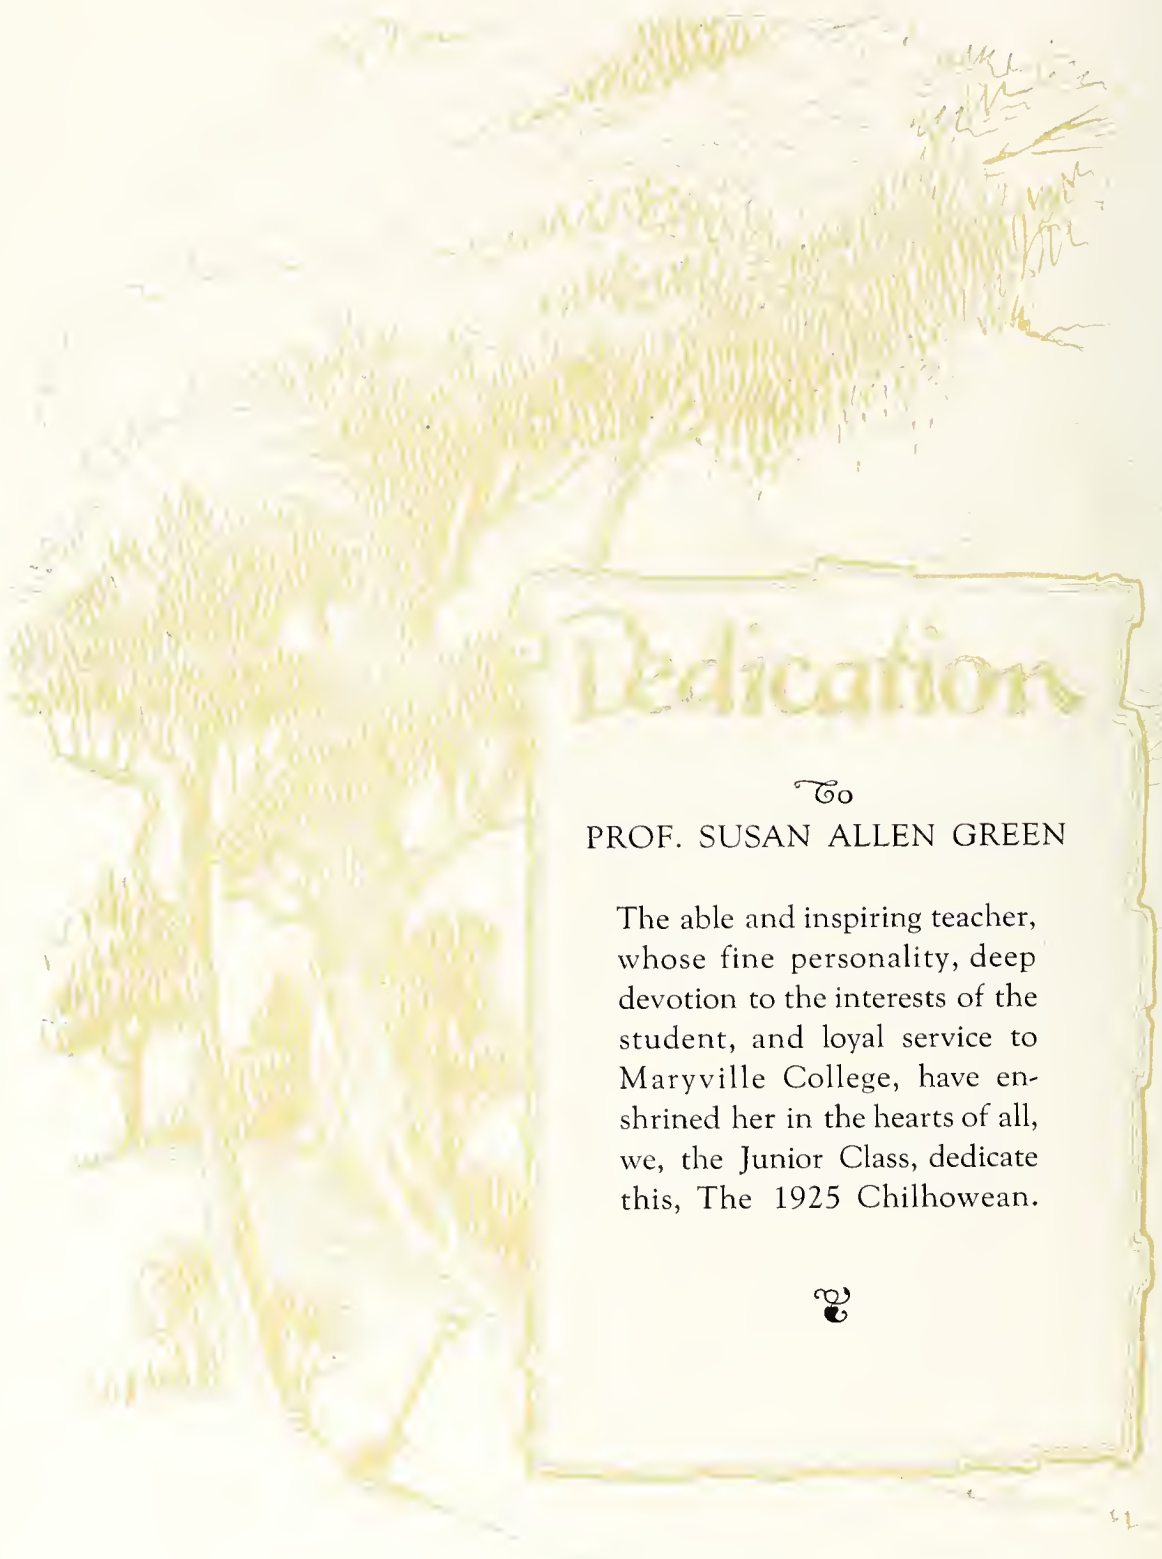
# Foreword

COLLEGE LIFE at its best is a mixture of sunshine and shadow, and in the production of this nineteenth volume of The Chilhowean, the staff has endeavored to give a true retrospect of all campus and student life. If, when the winter of life has come and memory's vision is dimmed by time, this volume serves as a source of pleasure and joy, and helps you to live over your happy days at Old Maryville, and to meet again your friends and acquaintances, we shall feel that we have been rewarded for our efforts. ✣ ✣ ✣ ✣ ✣



# Dedication

To

PROF. SUSAN ALLEN GREEN

The able and inspiring teacher, whose fine personality, deep devotion to the interests of the student, and loyal service to Maryville College, have enshrined her in the hearts of all, we, the Junior Class, dedicate this, The 1925 Chilhowean.

JEAN GORDON McMURRAY, B.A.

MARYVILLE, TENNESSEE

*Alpha Sigma*

Treasurer Adelphic Union '22; Varsity Football '22-'23-'24-'25; Varsity Basketball '22-'23-'24-'25, Captain '22-'23; Varsity "M" Club '22-'23-'24, President '25; Varsity Tennis '22-'23-'24-'25, Captain '22; Friendship Council '23-'24-'25; Men's Glee Club, '23-'24-'25, President '24; Varsity Quartet '24-'25; Varsity Baseball '24-'25; Varsity Track '24; Theta Epsilon Mid-Winter '24-'25; Student Council '24; Class Vice-President '24; President '25.

Jean is a loyal Maryville student, because he came here as a Preparatory student and has been here in College four years. He has taken quite an extensive part in athletics, having been a five-letter man one year and a three-letter man for the other three years. We are indeed very proud to call him our classmate. He was chosen "Best-all-round" by the student body this year and that seems to speak for him better than we could. There is only one weakness that we can find in Jean—he has a mania for red hair, and it seems to be an incurable weakness. Good luck to you, Jean.

MARY RUTH HOYT

MARYVILLE, TENNESSEE

*Mascot*

This little lady is three years old and she is perfectly adorable. She has dark brown eyes and curls to match them. She is very ambitious and works cross-word puzzles nearly every day—of course she doesn't do all of the work, though. When the Seniors planted their tree, Mary Ruth helped with her little spade. The class feels that she is a very great part of it and as the years roll by they will watch her work with a great deal of interest and enthusiasm as she enters school and then enrolls as a Maryville College student. She has already expressed her ambition, which as you can see from the cartoon below is a worthy one and one which we all hope that she will attain at some time in her life. When the time for our class reunion rolls around, we are expecting to have a nice young lady in the person of Mary Ruth Hoyt, present at the occasion. All of our class wishes for you the best that life has to offer.

GENEVA ANDERSON, B.A.
MARYVILLE, TENNESSEE
*Theta Epsilon*

It has been said that red hair is the sign of genius. If this is true, she has the sign and evidently the genius. She is a hard worker and she is well rewarded for her work, because A's in Theism are high honors. It takes work to show one's genius and the pep to carry out one's plans. Geneva has both these qualities and she is bound to succeed in life. A good, genuine laugh is an asset to any person and this, too, Geneva has. She has a sweet, sunny disposition which has caused us to believe that red hair is not a sure sign of a high temper—at least, there are exceptions to the rule. She is quite adept in the art of giving Intelligence tests and working out class norms, medians, averages, and correlations, and this is something else which requires hard work and concentration. We wish for you the best that life has to offer and a full portion of happiness, and we assure you that your Alma Mater will ever be proud of you.

RENA MAE ANDERSON, B.A.
MORRISTOWN, TENNESSEE
*Theta Epsilon*

Vesper Choir '22-'23-'24-'25; Vice-President H. G. C. Club '23; Program Secretary Theta Epsilon '23; Girls' Glee Club '24; Chilhowean Staff '24; Stage Manager Theta Epsilon Mid-Winter '25; Intercollegiate Debate '25; Pi Kappa Delta '25.

"Renie" is one of those delightfully positive people who has the courage to stand up for what she believes, no matter how much opposition she may have. She is particularly able to hold her own on the debate question and in such classes as Psychology and Ethics. That is one of the great qualities of a winner. Where there is a lot of hard, unpleasant work to be done—the kind that doesn't give much honor where honor is due—"Renie" is ready to help out, because she is so unselfish. She is as good a sport as you ever find and as true as she can be to everyone. We are sure that she will win out in whatever she undertakes, and we all wish her the best of luck.

Alpha Sigma Mid-Winter '22-'23-'24; Student Council '23; Nu Gamma Sigma Leader '23-'25; Intercollegiate Debate '23-'25; Pi Kappa Delta '23-'24-'25; Contestant for Alexander Prize '23; Assistant Physical Director '24-'25; Dramatic Chairman Theta Epsilon '24; Spanish Players '24; Maryville College Players '24; Vice-President New Jersey Club '24; Class Editor '24; Chilhowean Staff '24; Girls' Glee Club Reader '24; Graduate in Expression '24; President Theta Epsilon '25.

"Oh, 'Red', how wonderful!" Her eyes grow big when she says this and "Red" looks so pleased. She is a bright child, is Myrtle, and able to hold her own in any argument—and observe the poise! She is never happier than when she is expounding her own thoughts to someone. No one in the class is more vivid, more fascinating than she. She came to us from the smoky city of Camden, New Jersey, and she is not used to seeing herself in all her glory because of the smoke.

MARY KATHLEEN BAILEY, B.A.
BAILEYTON, TENNESSEE
*Bainonian*

Teacher in Preparatory Department '25.

Here's to the Virgil teacher in the prep department! She doesn't seem very much like a teacher, with her big brown eyes and innocent smile. She is a good sport and just lots of fun to talk to. Now that Spring is here, we wonder if her thoughts do not turn to St. Louis and memories of last year's Spring mountain hike. If that is not it, why that dreamy, far-away look in those eyes? We can hardly conceive of Kathleen as a dignified school marm next year. It's easier to imagine her in a cozy little bungalow somewhere in the big—well, perhaps that had best be left unsaid for the present. We feel sure that she will make a success at instructing the young lads and lassies or whatever else she takes up. The class of '25 is backing you, "Kat" and we want to see you make good at your task.

ELIZABETH REBECCA BIGGER, B.A.

CHATTANOOGA, TENNESSEE

*Theta Epsilon*

Treasurer Theta Epsilon '23, Editor '24, Secretary '25, Mid-Winter Committee '25; Student Council '24; Postal Clerk and Assistant in Loan Library '24-'25.

"Becca" is quiet, modest, warm-hearted, outspoken, and generous. She admires the noble, sincere and genuine things in life and goes about her work with a determination to win. She is a good conversationalist and one to be desired as a friend. The teachers and students as well know that she is to be depended on. Everyone respects her and admires her, as is shown by the large number of friends she has in College. She is a "Shark" in Mathematics and expects to teach that subject in some high school next year. "Becca" broke into the ranks of the regular "Moonshiners" last year, but he isn't here this year, so it is different. Most of the College students are content with one degree, but Rebecca is aspiring to two or three before she gets through. We hope you will attain this, "Becca."

CHARLES ROY BLACK, B.A.

OLIVER SPRINGS, TENNESSEE

*Athenian*

Assistant in Lamar Library '23-'24-'25; Recording Secretary Law Club '23; Secretary Athenian '23; Class Football '24-'25; Friendship Council '24-'25.

Roy seems to have assumed a more cheerful attitude toward the world here lately. Wonder why? Is it because "In the Spring a young man's fancy lightly turns to thoughts of love", or because of the appearance of a certain young lady on the hill for the second semester's work? It seems, however, that both of these reasons must go together. Roy is always nice and courteous and he will be missed in the library next year. He has a friendly smile and a kind word for every one that comes along. Talk about optimism, he is just about the most optimistic fellow that you ever saw in your life. He sees something good in everything, and always sees the sunshine instead of the shadow. That's right, Roy, we are all with you.

EMMA DYER BLAIR, B.A.

BIRMINGHAM, ALABAMA

*Bainonian*

Blue Ridge Delegate '22; Y. W. C. A. Cabinet '22-'23; Class Treasurer '23; Publicity Chairman Bainonian '23; Alabama Woman's College '24; Vice-President Art Club '25; Vice-President Bainonian '25; Graduate in Art '25; Bainonian Mid-Winter '25.

"Babbie" is our idea of the perfect athletic type of girl—tall, sturdy, and sportful. We might say that her favorite sport is going to the show in the afternoons, but we are afraid that Miss Molly might hear of it. She plays the ukelele and does various and sundry other things that bring down the lightning on her innocent head. Her sure cure for colds is an onion poultice and a night's rest: this seems to satisfy her artistic sense. Speaking of art, we feel sure that her exhibits will soon be seen in New York and Philadelphia and Knoxville. We will all be there to see the exhibit, if they will only serve refreshments, because—well, you know how these Maryville students are.

ROBERT ALEXANDER BROADY, B.A.

WHITE PINE, TENNESSEE

*Athenian*

College Band '22-'23-'24, Director '25; Vesper Choir '23-'24; Athenian Mid-Winter '23-'25; Director College Orchestra '24; Class Football '24-'25; Friendship Council '24-'25; Men's Glee Club '24-'25; President Pre-Medical Club '25; Assistant in Physics '25; Assistant in Philosophy '25; Y. M. C. A. Cabinet '25; Director Athenian-Bainonian Orchestra '25.

"Bob" is the "tootinest" fellow we ever saw but his modesty won't let him toot his own horn all the time. However, he toots his own horn every morning before the other folks get up. When he plays "Onward Christian Soldiers" for us to march out of Chapel by, we feel as if we were getting a very good insight into his own life which is upright and noble and these songs which he plays speak nobly of his character. Along with these other things he is a dandy sport and we all like him. We expect him to make a famous "long distance" runner some of these days.

*"BABBIE"*

*"BOB"*

WICK BROOMALL, JR., B.A.

BIRMINGHAM, ALABAMA

*Alpha Sigma*

Vice-President Ministerial Association '23, President '24; Critic Alpha Sigma '23; Program Secretary '24, Vice-President '24, Recording Secretary '24, Oratorical Prize '24, Mid-Winter '24, Editor '25; Friendship Council '23; Blount County Jail Gospel Worker '23-'24-'25; Teacher in Preparatory Department '24-'25; Highland Echo Staff '25.

Wick is very quiet and serious, but underneath it all he has a heart of pure gold. It takes a man with brains to teach Mathematics, orate, and take part in the various activities that demand his time. In addition to these things, he has made exceptionally high grades and all this goes to show what a worker he is. Every Sunday afternoon we can see Wick when he starts down to the county jail to teach a Sunday School class and then preach to the men and women in the jail. You are a credit to your College, Wick, and we are proud of you. We are all backing you in your life's work.

HELEN MAE BROWNING, B.A.

KNOXVILLE, TENNESSEE

*Bainonian*

Hiwassee College '22; Winner Oratorical Medal '22.

Helen is such a wee little girl and so quiet that no one ever hears her when she moves around. At Hiwassee she won an orator's medal and must be quite able to make a noise when it is necessary. She has such a fetching little lisp when she talks, and such a catching little smile that we sometimes wonder if these were not made for the same purpose that all other girlish things are made for. The Encyclopedia made a mistake when it published that "Little head, no brains—Big head, many brains" article. Someone should have studied Helen before making such a rash statement as this. She is little, but she is a good student and makes high grades on her work. She stayed out of school last year and taught and from the way she talks, she must have enjoyed it immensely. The best wishes of the class are with you, Helen, and we are expecting great things of you.

*"WICKED"*

*"TINY"*

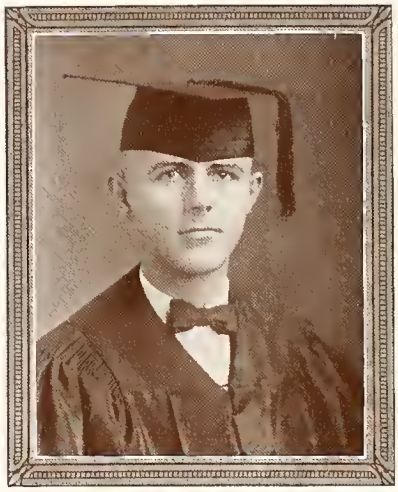
ANNIE MARGARET CARSON, B.A.

MADISONVILLE, TENNESSEE

*Bainonian*

Assistant in Home Economics '23-25.

Little Annie Margaret calls Madisonville her "Home, Sweet Home." The principal occupation in that great city is gliding, sliding, and bumping on roller skates. Every Saturday afternoon at three o'clock—when she is at home—if you will watch closely you can see Annie Margaret tieing on her skates in preparation for a merry little jaunt to the metropolis. She has become so proficient along this line, that it has been rumored that the Radcliffe Chautauqua has signed her up for the coming season and if she makes good, for life. Annie Margaret has had a very large part in our class, in fact, next to the largest, being outweighed by only one member. This may be the result of her course in Home Economics because she sticks pretty close to the kitchen, where she makes good things to eat. She is a jolly good pal, true to her friends and always loyal.



CHARLES EDGAR CATHEY, B.A.

NASHVILLE, TENNESSEE

*Athenian*

Athenian Mid-Winter, '22-'25; Student Council '23-'25; Secretary Athenian '23; Class President '24; Maryville Players '24; Secretary Y. M. C. A. '24; Teacher in Preparatory Department '24; Hi-Trail Club '24-'25; Class Football '24-'25; Delegate to Indianapolis Convention '24; Delegate to Y. M. C. A. Conference at Nashville '24; President Y. M. C. A. '25.

"An honest man is the noblest work of God." This seems to fit "Ed" just exactly. He is rather quiet and gentle yet his influence can be felt in many different activities on the "Hill." He has been one of our most popular students—if we may judge by this long list of honors. An infallible criterion by which to judge a man's popularity is the number of friends which he has and "Ed" has an innumerable host of these. His fair and square attitude and his irresistible personality are responsible for this. May success be yours, "Ed."

*"ANNIE MARGARET"*

VIRGINIA STONE CLARK, B.A.
DAWSON SPRINGS, KENTUCKY
*Theta Epsilon*

Alpha Sigma Mid-Winter '24; Maryville College Players '24; Spanish Play '24; Chemistry Club '24-'25, Program Secretary '24; Chemistry Assistant '24-'25; Dramatic Chairman Theta Epsilon '25; Theta Epsilon '25.

"I'll see if I can get my husband's ring, which I did make him swear to keep forever." Virginia seems a lot more natural quoting Shakespeare than she does doing anything else. She's a real Shakespearian heroine with deep voice, dramatic eye, and purposive stride and everything except the long knee plaits of hair. We are expecting her to find something to erase the "damned spot" from Lady Macbeth's hands by the time she begins playing that character because chemistry is her second best "pet." How can she live with such an explosive combination as chemistry and drama in her head at the same time? We hope she does not try to dramatize "The End of the World."

EDWARD GORDON CORNELIUS, B.A.
HARRISON, OHIO
*Athenian*

Vice-President Athenian '22, Program Secretary '23, Treasurer '23, President '25; Treasurer Law Club '22, Vice-President '22, President '22-'23-'25; Y. M. C. A. Cabinet '22-'23-'24; Intercollegiate Debate '22-'23-'24-'25; Circuit Debating Team '23-'24; Intercollegiate Orator '23-'24-'25; Winner College Medal '23; Vice-President Pi Kappa Delta '23, President '25; Delegate to National Convention Pi Kappa Delta Oratory and Debate '24; Winner French Medal '24; Winner Alexander Prize '24; Class Treasurer '24-'25; Class Football '25; Hi-Trail Club '25; President Ohio Club '25; President Student Council '25; Athenian Mid-Winter '25; Treasurer Y. M. C. A. '25.

The marble physiognomy of "Ed" tells its own story. However, his eye can fuse on Monday afternoons when he is "Moonshining", or when he is defending his position in debate, his eye and tongue seem actually to weld in the heat of the fire that flashes from his rapid brain. Never mind, "Ed", you'll never have to carry arms.

EMMETT ELIJAH CORTNER, B.A.

CORTNER, TENNESSEE

*Alpha Sigma*

Class Football '23-'24-'25; Class Basketball '24-'25; Assistant Manager Basketball '24; Manager Varsity Football '25.

"Speck" comes from a family which is so renowned that the town is named after-before him, or anyway it has the same name. He seems not to be very much interested in the ladies, but that is only the way it looks, because he just won't show that he likes them. He says that they are not to be trusted and that he will not have anything to do with anyone who is not trustworthy. "Speck" just loves them to death but he wouldn't say so for the world. We wonder if some fair damsel didn't break his heart back in his younger days. The boys find him a real fellow and the football team thought him capable enough to manage the team this year and he made good at it. He goes about his own business—when he can't find anything else to do—and he is a good friend. He likes Ethics and Theism and puts a lot of time on them.

HICKORY, NORTH CAROLINA

*Bainonian*

Lenoir-Rhyne College '22-'23; Tar Heel Club '24-'25; Devotional Committee Y. W. C. A. '25.

Julia was not with us for her first two years in College, but we have learned to love and respect her since she has come. As a friend she rings true and as a pal we could desire nothing more. Because of her high principles and her winning personality, she has made a place in the hearts of all and we shall ever remember her for this. We wish that we could meet each and every one with a smile as she does because that is what drives the gloom away and brings the sunshine instead. As a student, Julia is one who takes pains with her work and she is rewarded by the high grades which come as a result of it. Keep always before you that determination and sincerity which is so characteristic of you, Julia, and we prophesy for you a very successful life.

HELENA CHARLOTTE FARRAR, B.A.
HAMMONTON, NEW JERSEY
*Bainonian*

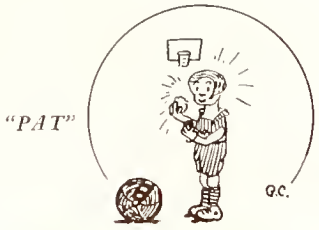
Varsity Basketball '24, Manager '25; Secretary Bainonian '24; College Orchestra '24-'25; Program Secretary Bainonian '25.

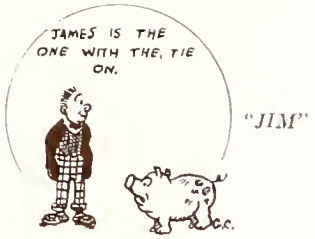
"Pat" is considered an "all-round" girl. On the basketball court, she is swift in covering the floor and is a regular stone wall on the defense. She has been on the Varsity team for the last two years and was manager this year. She is one of the most faithful boosters of girls' athletics. "Pat" is a star in tennis and has won several championships here on the "Hill." She has been faithful in the literary society and in her past days, she has made a letter in "Moonshining." When anything original is wanted, we always go to "Pat" for suggestions. We remember especially the "Kitcheninnie" Orchestra as one of her creations. It was one of the most original numbers that we have seen. She is a real sport and takes part in everything that comes along.

JAMES E. FAWCETT, B.A.
CANONSBURG, PENNSYLVANIA
*Athenian*

Assistant in Biology '23-'24-'25.

James has the advantage over some of us because he has obtained part of his hearts desire before finishing his College course—he is married and has an adorable little child. Mr. Fawcett plans to enter the Theological Seminary after he leaves here, to prepare for service which he intends to render in some fashionable city church. "Hitch your wagon to a star", is an excellent motto and we can't blame him for thinking of the sermons which will be broadcasted from his church and bearing his name. He is a very hard worker in everything that he goes about no matter what it is. His better half is a real inspiration to him to do his very best for her. We admire him for his ability to work hard and keep up his studies all at the same time. We feel confident that he will succeed in his life-work and we wish him the best of luck.





ESTRA LUCILE FONDREN, B.A.

MATHISTON, MISSISSIPPI

*Bainonian*

Secretary-Treasurer Mississippi Club '22; Girls' Glee Club '24; Nu Gamma Sigma Leader '25; Secretary Bainonian '25; Bainonian Mid-Winter Committee '25; Athenian Mid-Winter '25.

Lucile, better known as "Ditto", is our cutest Senior, and voted by the student body as the most attractive girl in school, which honor she rightly deserves. Her brunette hair, cheerful smile and dreamy eyes make an attractive combination, and when backed by wit and humor, an irresistible one. She possesses a bright mind which is brimful of original ideas. This talented Senior possesses all the qualities of an ideal girl. To her many devoted friends she is witty and jolly and deserving of the love and trust which they so unsparingly give her. In her unobtrusive way she has won the distinction of the most versatile girl in our class. Because of her attractiveness and charm she has won a certain young gentleman's heart this year. Now, if you don't believe this, ask Clyde.

HARRY HENDRICKS GAUDING, B.A.

CLARKSVILLE, MISSOURI

*Alpha Sigma*

Maryville Players '22-'23-'24-'25; Alpha Sigma Mid-Winter '23-'24-'25; Theta Epsilon Mid-Winter '22-'23; Assistant in Biology '23; Glee Club Reader '23-'24-'25; Spanish Players '24; Program Secretary Alpha Sigma '24, President '25; Secretary Student Council '25; Secretary Friendship Council '25; President Missouri Club '25; Graduate in Expression '25.

During all of his college career Harry has been a leading figure in Alpha Sigma and in many plays given here on the Hill. In spite of Harry's adorable smile, his heart is as care-free as if he had no concern for anything. However, he is quite adept in the osculatory art, as demonstrated in "The Three Wise Fools." If this requires any practice, Harry has had plenty of it because his demonstration was perfect in the eyes of the audience. Harry is full of fun and he is a good pal, too.

WARTRACE, TENNESSEE

University of Tennessee '14-'15-'16; Service on Mexican Border '16-'17; American Expeditionary Forces in France '18-'19; University of Marseilles, France '19; Maryville College '24-'25.

Sitting awed in the presence of the dignified teacher of Psychology, we who did not agree with her were content to keep this fact to ourselves, but this was not the case with Paul. We first learned him in this class when he was astounding us with the Psychology which he knew. He was always able to uphold his side of the argument and we admired him for this. We soon found out that he had stood up for his rights in the great World War on the battle-field and then we couldn't wonder at his bravery. Paul sometimes has that characteristic feeling of restlessness which is had by those who have passed from excitement to placidity, but he has stayed with us just the same and we are exceedingly proud to call such a man one of our classmates.

Mabel is to be judged, not by her name, but by her face. It speaks volumes of loveliness, tenderness, and sincerity. She has been with us only two years but we have been happy to have her for even that length of time. She has done many things for us and for our class, and always with that same spirit of willing service, seeking no personal gain. She is a quiet, studious girl, and one who has shown the spirit of the College ever since she has been with us. Mabel is a valuable member of our class and we expect to hear from her in her later life, doing great things and of course she will. She is expecting to teach and we know that she will have success in that as she has had in all of her work here with us. We all wish you success, Mabel, in your life's work.

"Hiro", as we perhaps know him best, has a motto which says, "Think not that because no man sees, things will remain unseen." These words speak his character. He acts in such a way that no one will be able to question his character. When a real worker is needed on some committee, "Hiro" is always selected when it is possible to do so. He doesn't always believe the worst that he hears of people, but he believes only what he knows is true, because his conscience will not let him think bad of people. Speaking of his conscience, one time he and "Henri" came from church along the wrong road and his conscience hurt him for a whole week afterwards, because he was afraid that she would get into trouble.

When the call was made in the Fall of '21 for able-bodied young men to fill the ranks of the Freshman class, Nathan answered the call. From the very first he has been imbued with the "Maryville Spirit" and he has been loyal to the old College. In his first year, he began a hard struggle to make the tennis team and finally succeeded in his Junior year. To play tennis well requires patience, clear judgment, a spirit of fair play, and a sense of honor, the qualities of a gentleman, and he has shown to us that he possesses these qualities. Nathan has a very reserved disposition and a pleasant look that makes friends for him without any trouble. We are proud of him and anyone could be justly proud to call such a man a friend.

"Lucile", Jimmie says, "is too pretty for words", and then he adds under his breath, "She would be ideal as the wife of a king." Lucile did not have to go through the ordeal of being a "Scrub" on the basketball squad, but she made the team at the very first and she has served as an efficient guard for four years and was selected as captain for one of these years. Some people wonder why she is so sweet. She is from a city which is called Sweetwater. We can't say that this has the same effect on all that it has had on her. She is called the pretty girl on the basketball team and all of the boys want to take her home after the game, when they are away on a trip. We can't blame them though, because we would too. We will miss you next year, 'Cile but we hope for you the very best of everything.

You have read about these "Dere Mabels" and perhaps about other Mabels, too, but you have never heard about "Mabel Dere." She has an abundance of pent-up energy which is sometimes let loose in some of her classes. She has some real knowledge which she often demonstrates—especially in cooking dainty and delicious dishes which would win the heart of any man. She says that she would much rather be the pianist for some evangelist, than to have a man. She will change her mind one of these days. Way back in her heart she has a smile for each and every one although she may not show it. Her friendship is well worth cultivating and her personality is already well developed. Here's hoping that some man will have the energy to win her heart before she truly decides to be an old maid.

You never hear this young lady yelling in the halls or on the campus, and she is one with whom Miss Molly has no trouble. Mabel is a graduate in the Smith-Hughes Home Economics course, and the man that has this girl for a cook will not have to suffer for the lack of well-cooked foods. She can't even keep from cooking on Sunday afternoons. She has personality and intellect, and in addition to this, wit and humor play a large part in her everyday life. Another quality which she displays is her ability to keep people happy, even in the most adverse circumstances. She will make good in life and our best wishes go with her.

Barbara, the little black-haired, black-eyed girl from Boston, is a peach of a kid. She has individuality and strength of character enough to say "yes" or "no" and then back up her answer. There is a report that up in Walland is a man who is very much interested in Barbara's welfare. She doesn't seem to mind if he takes an interest in her, and if we are to judge from her actions, we think that she really encourages him along this line—we can't blame her though. "Babs" was here in the Preparatory School several years ago, and then she went to the University of Boston for her first two years in college, but she couldn't stay away, so she had to come back to us for her last years. We are indeed glad to have her with us and we wish that she had been here all of the time. She adds much to the prominence of our class.

Though he gives the serious questions of life their proper attention, we can't conceive of him without his ever present element of fun. He has the power and ability to adapt himself to any situation which may arise. His pleasant smile challenges the friendship of everyone with whom he comes in contact. Strong in character and purposeful in mind, he has made his time count for the most since he has been in Maryville. Just such strong qualities as these woven together in the same person makes a combination which is irresistible. Coupled with these other things, Carl is a good student and makes good grades, especially in Economics and Education. He is planning to teach next year and we feel sure that he will make good at that as he has at everything else which he has tried. May success be yours in life, Carl.

He is one of our best baritone singers and he is a good pianist at the same time. John has a bright mind, which is one of the prime requisites of assistants in Biology and Psychology. He is apparently very quiet and easy, but he shows his wit and humor at the Senior parties and he displays some real wit. He nearly makes Mrs. Minton tipsy on innocent punch. John is a staunch friend to everyone and he is a fair representative of Maryville College. As for the girls, he seems to believe in the "Safety of numbers" and the "Variety is the spice of life" series. That's all right, John, we are all back of you. May luck be yours in your work.

Madge is a good ole sport and you can often hear it said that "Where Madge is, there you can find George, too" and that it is not far from right. Madge shone on the girls' basketball team this year, playing center where she made a good record, tossing goals when we needed them most. She represented our class on the Student Council last year and there she got all the inside dope on us and had a chance to tell them just what she thought of us and from what they say, we were the subjects of some warm discussions in the Council. She got locked out of the Chapel the other day for being late and she is trying to pay them back for it. We hope that you'll make the Shores, Madge.

George is one who knows what she wants at all times and in a great many cases she has to disagree with the one in charge in order to uphold her side. She lives in our suburb—Knoxville—and she was one of the first ones to get here when the time came for her to enter College. As a Senior, we can't exactly say that she is dignified—you know what that is—but she is able to take her stand with the Seniors, if that requires any dignity. She has the "Pep" of old Maryville and is a loyal supporter of the Orange and Garnet. She has added an artistic touch to the class and we are glad that she joined us even as late as she did. When anyone wants to give vent to their feelings, they just say "Darnet" and if questioned concerning their use of English, they immediately explain that they were calling Garnet, because that is her nickname. She is particularly fond of snow, because it gives her a chance to snowball and play in the snow, which she enjoys greatly. She intends to teach next year and we expect her to make a good showing in that work. To this we are wishing her success and all of the class is backing her in her work.

Mary, as a child playing in her own back yard, has seen the big buildings up on College Hill and wanted to go to school up there. The time has come and almost gone when she saw the realization of her dream, because she has been to school in those same buildings and is almost ready to go back to her back yard and say that she has realized the fulfillment of her dream. She is very patient and hard-working and seldom has anything to say. She is rewarded for her hard work in school by her grades and good that comes from her work. She hasn't told us what she expects to do in life, but we are hoping that she will do her best and we know that all will be well with her if she does that. Mr. Long is quite dignified. You could guess that from his picture, couldn't you? He went to Hiwassee the first year and did good work down there. This same record of good work has persisted since he joined our ranks for the last three years work. He is married and is quite happy with a thriving business in the form of a restaurant and lunch room. When he finishes here in June, he will take up his work in the educational world, or elsewhere. He has the capacity for hard work in whatever line he takes up and he is bound to succeed in anything. We hardly ever see him except in the class-room, and we don't know very much about him. We admire his persistence and perseverance which are shown by his dogged determination to get an education in addition to taking care of his family and supporting it. Some day when he gets to be a millionaire we will be very proud to say that he was one of our classmates.

We will not tell any of her secrets, because she is too innocent to have any person hurt her feelings. She has numerous friends here and she is a good friend, too. She has had a hard time this last year because of ill health, but that hasn't kept her from making good grades in school. "Bob" came to us from the land of sunshine where she has spent the greater part of her life. When the time came for her to leave that land and come to one of "Moonshine", she was loathe to leave that sunny clime and she brought that same sunshine with her up here and we have seen the effects of it ever since. She studies hard in order to get by with her work. She has just spent a lapse of time in the Practice House where "life is all work", according to one who has been over there for a time. She enjoyed it, nevertheless, and is the better for it. Her cooking consists of some dainty dishes and we'll say it is good, too. "Bobbie" is one who can always see the bright side of life and she can smile when everything goes wrong about her.

He is another one of our "Moonshiners" and he puts in quite a bit of time at that. That is his part in the athletic world. He is going to instill his mathematical ability into the heads of some young people in some high school next year, and see if any of them are able to do what he has done here. He likes Chemistry, or at least some of those who work in the Chemistry laboratory and grade papers and note-books. Clarice is a true member of the "Knights of the golden fleece" and by this we know that she has plenty of pep, which is characteristic of so many Maryville students. She lives not very far away, but it seems that she would rather stay here than to go home because she has something here that is more attractive to her. She is especially fond of the "male" man and it is very convenient for her to look over her left shoulder in Ethics at her "heart's desire", who in turn beams with delight. Clarice is one of our language "sharks" and she is going to teach language in some high school next year. She will make a good teacher if we are to judge from the record that she has made in that line of work. Wonder if she ever says that "Goat" can't understand. She ought to have him trained pretty well by this time and he ought to be well versed in all of the foreign languages of the day. That's all right, Clarice, don't let anyone get your "Goat."

"Duck" is a quiet, unassuming young Maryville lass who has realized the advantages of a college education in her own home town, and she has taken all of the opportunities and made the best of them. Probably you wouldn't be very much impressed at first but just you wait until you have heard her in a speech in "Systematic" or on a recitation in English Literature and you would surely be impressed by her ability. Rose is little in stature, but this does not mean that she is a small member in our class. She studies hard and makes the best of every opportunity that comes along. She doesn't stay on the hill long enough for us to learn very much about her outside of classes, but we think that she is as good outside of class as she is in it. We know that she will make a good teacher, but we will take this privilege of telling the children who might be under her tutelage, that they had better beware when she "quacks."

Helen is the fourth of her family to graduate from Maryville. She has not cast a gloomy shadow on the glorious precedent which was established by those who have gone before her, but she has done her share in upholding that precedent. She declares very emphatically that she is going to teach Home Economics to the little lassies next year, but we'll vouch that that instruction will not last very long until she is cooking for herself and her husband. Some fine man will win this jewel and will take her away to his castle and that will end her career as a school teacher. Helen is a natural born lady with not a selfish atom in her whole make-up. She spent some time in the Practice House where she could cook all that she wanted to, and had to work hard, too.

Elizabeth began her early life and education in our neighboring county and made a success while she was there, without using books—of course you know what that means. Then she came over to Maryville to practice those things which she had learned in her early days and she made great progress here in the same order. We attribute this ability to something which is to be found in the human anatomy above the shoulders. She is a "Shark" not only in books, but in all kinds of work. We will say that she is one with whom conversing is pleasant and one with whom anyone can enjoy a good joke. She is full of wit and always has a pleasant smile on her face. Of course you have heard about "Smitty"? Well, just ask Elizabeth.

We are sorry that she did not come to be with us during her first two years in College, but we are glad that she came for these last two years. She is a good student and makes good grades and she is to be commended for having enough nerve (if it might be called such) to study Parliamentary Law and Political Parties. No one in our class is liked more than our "Liz." She doesn't boast of her good qualities to the passing public, but she works quietly and effectively and gets things done. She has held three offices in our class and that shows what the class thinks of her ability. The Bainonian Literary Society realizes that there seldom comes into her midst, one who is so faithful and loyal and works so hard for the society as our 'Lizabeth. It is said that the one who does things and gets no honor for it, is the one who wins out in the end and if this be true, we are sure that she will win. Everyone finds in her a good pal and one that can be depended on. She is too true to herself to stoop to anything that isn't noble.

"Valuable things come in small packages", is to be applied to Edythe, because she is small but valuable. She's so little and cute and well-dressed and well-poised and—if anything is left out, just supply it. By the way! She is a graduate in the Smith-Hughes course this year and you know what that means. Whoever is lucky enough to have her for a cook will surely be well-cared for because her cooking is perfection itself. When Edythe comes out of the kitchen, she goes on the stage, and we all remember the part she played in "The Prince Chap" and how well she did it. That speaks for her and nothing else need be said. Seniors do hate secrets and we wish someone would ask her who the man is.

Helen is one member in our class who is unusual. She can do just as she pleases —that is, she can do all the "Moonshining" she wants to or go to town whenever she pleases because she stays out in town. Regardless of the amount of time which she has for various avocations, we find her a valuable member when we want anything done —especially if its eats, because she puts into practice what she has learned from her Smith-Hughes course. This is merely one of her acquirements, due to the fact that she is able to practice what she learns. As for "Moonshining", she has become one of the "Regulars." We often see her engaged in this pastime, and it is a good one to engage in, too. With all of these other things, she is a good student and makes good grades. She digs for results and gets them. And what is more satisfying than to feel that one has overcome all the obstacles that present themselves in the struggle for an A.B. degree? We expect to hear of her doing great things in the Tar Heel State.

Louise or "Sleepy", as she is otherwise known, is a typical Southern girl who never sees the idea of getting in a hurry. She says, "What's the use?" It is much more easy to take things as they come, than to rush through anything, according to her way of thinking. Somehow, we always think of her as belonging on a big Southern plantation and wearing soft, fluffy dresses and doing no hard work unless she really wants to; but she is very capable and can make as good a plate of biscuits as you ever tasted. She's becoming quite an artist, too. She doesn't like to stay in the Practice House because she says it is just one job right after another and she doesn't like that part of it. Along with these other things, she finds time occasionally to "Moonshine." Of course you know who it is with and we could say a whole lot about Doris but you will read about him on another page.

It has been said that "Every man admires a fighter", and if this is true, no one can keep from liking "Dorsel." He is the hero of many battles on the gridiron and on the basketball court. But we cannot judge a man by only one side; we must see what position he has filled as a student. He has taken a great part, not only in athletics, but in the other activities and we find that he is a good sport in every sense of the word. He is a jolly, rollicking friend to all. He seems to think that "A man without a sweetheart is like a fish without water", because he is quite fond of the girls, even if he does try to conceal the fact. That's all right, Doris, we're all for you.

"Jo" hails from the state of Arkansas and has proved herself a sure enough "Arkansas Traveler." She has kept up a rapid pace in her school work, as well as her superb attainments in voice. She has been a faculty assistant for the last two years and that has not interfered with her making high grades. Whenever there is anything to be done, we can depend on her to do her share and then some more because she is willing to do anything that comes up. The Bainonians will remember her as a faithful servant. One thing she has on the rest of us is the fact that she may some day become a "Queen" and the rest of us will not.

George came to our class first as a Sophomore, having spent his Freshman year at Auburn, another good school. That is perhaps why he has been such a good classmate to us. We will remember him especially because of his work in the Athenian Literary Society, the Y. M. C. A., and also as one of our class football men. He has taken part in various activities here on the hill and everyone has become acquainted with him in this way. He has a genial disposition and is willing to help in any and everything that comes along and needs his help. He also takes a large part in "Moonshining." These things do not make a well-trained College man in George's estimation because he, too, believes that "Man should not live alone, but should have a better half."

We can't figure out how Lois keeps that marvelous complexion unless it comes from breathing so much free air. Some have suggested that it is the drug store kind but we can't believe that. Lois' voice is ever sweet and soft and low, but she can deliver orations anyway. Everyone listens to her because she is so lady-like and she doesn't have to rave in order to be heard. She lives out in the beautiful grove just out from Maryville but she finds time to take part in College activities even though she doesn't live close to the campus. Just look at the basketball record that she has established and you will see that this is true. She has played four years for her Alma Mater and she has played well. She, too, has broken into the ranks of the "Moonshiners" and we see her quite frequently engaging in this pastime.

Gaydon was not with us until after he had spent an illustrious year at Palmer College, where he was quite adept at the gentle art of basketball and set up a good record. Coming from what we call the "Land of Palms", Gaydon decided to come to a live school to take his degree. He is a live man from a live state and naturally he wanted to go to a place where people really learn to live. Post has not only learned to live here, but he has shown us that anyone has to be a real wide-awake man to get ahead of him in History, Sociology, and Education. As yet, he seems to steer clear of the feminine sex because they don't seem to take up any of his time. However, on some occasions he shows himself equal to the task—at Senior parties, for instance. He is witty and jolly all the time. Post is a man who plays the game to win and we fell sure that he will. May good luck and happiness be yours in your life work.

He has taken an extensive part in minor athletics on the hill and he has been of especial value to us on our class teams. "Shorty" was selected by our class as the wittiest member and he well deserves that title, because he is the life of every gathering and especially of the Senior parties. He is the official "Historian" of the football games—you remember his well-worded discourse on the game at Roanoke. In fairy stories there was always a beautiful, blonde maiden around whom the whole story centered. Later, poets sang of the glory of the fair-haired woman and today, the true-type blonde is rarely found. But Kathleen reminds us of this fairy type because of that wonderful, soft airiness, and she so inspires us that we feel as if we, too, could write poetry about a fair-haired woman who has been in our midst for four whole years in College—but we are not very poetic, you see. Kathleen came to Maryville from Ohio, and fearing that too much authority being exercised over her would break her gentle heart and tax her delicate nerves, she dared not room on the campus but she lives just on the edge of it. We envy her this privilege because we might have been able to exercise the social instinct more than we have. We love her just the same, because she is so full of life and fun.

If you were as handsome as "Ted", perhaps you would have the right to a cartoon like his. We don't think he tries to show it like this cartoon would have you think. There is an Alabama woman that plays a large part in his life—if we are to believe all that we hear. He has a combination of wit and humor. As a musician he performs equally well on the cornet or the bass drum. He is particularly gifted in arguing with the professor about Ethics or Psychology. He is very active in everything he attempts and he is never still. His attitude seems to say, "I find the great thing in this world is not so much where we stand as in which direction we are moving." "Ruthie" has been with this institution for eight years—but that is not because she is so dumb; it is because she took her preparatory work here and then she took her college course here, too. She lives in the town, drives a great big car and has plenty to eat. She has an unlimited supply of good humor and a wonderfully sweet disposition. She is used to having perfect freedom, and when she moved into the Practice House, she felt lost. However, she obeyed the rules beautifully and made the best of it all. She has a sweet voice and sang in the Glee Club last year. She goes on Sunday to the church and sits in the choir. She is an ever-loyal friend and one that would be willing to do anything that she could for anyone else. We will miss her next year because of her wit and humor, but we shall remember her just the same.

"Dorothy Dodd" is another representative from the mosquito state. When it comes to sitting up late at night and working, that girl is perfectly able to hold her own. She had a hard time of it, but she made a nice job of the paper flowers for the Junior-Senior banquet. She was selected as Queen of our class and she well deserves the honor. She is a good tennis player and swimmer and is a big booster for athletics in general. She has a heart that is as brave, loyal and true as any that ever beat in anyone's breast and she is not half so Puritanical as she would have us think she is. Just look at the cartoon below. It isn't always the best people that carry away all the honors and medals for good deeds that they have done. Those who really know Emma realize her very generous humanness because she is not one who would "sit in the scorner's seat or hurl the cynic's ban." She has not told us what she is expecting to do in the future and we are not able to prophesy what she is going to do, but we wish her the best that life has to offer and we will ever cherish her memory, lovingly. We don't believe that Ethel would be excited if the house would catch on fire, she is so cool and composed. It is good, common sense that makes her like that and not any sense of negligence. Ethel is very fond of the Literature teacher and it has been rumored that "Lady Jane" is going to give her the well-known "Alexander" cat for a wedding present. Is it true? She wears a headlight diamond and an athletic sweater that belongs to some nice chap back in the home town. # Seniors in Athletics

The Senior class, although deprived of many of her athletes due to varsity competition, took an active part in inter-class athletics. The Senior football team had a very successful season, although the championship game was lost to the Sophomores. One of the best games of the season was the one played against the Juniors. To name any stars would be unjust, because every man showed the true class spirit and played a steady game of football. The Senior basketball team gave a good account of itself in the inter-class games. Although the Senior team did not win the championship, they made the other teams fight hard in order to eliminate them from the championship game. Here, as in football, our best men were barred on account of the varsity. In track the Seniors showed their best work. What is now the Senior class began showing some good work in track when it was in its Freshman year and has continued up to the present time.

Though we are leaving our Alma Mater, we are leaving records in athletics for the other teams to strive for. That famous quartet of football men, Thrower, Schmidt, McMurray, and Musick will not be soon forgotten. In the other sports these same men showed up well. In addition to the varsity men there were many who helped to furnish reserve material for the teams. Our class has the first and only Maryville man to make five letters in one year—Jean McMurray. He lettered in football, basketball, baseball, track, and tennis in 1924.

The class of '27 has, in its two years at Maryville, made a record of which its members may justly feel proud. One hundred and fifty strong this year, it has continued to contribute to the advancement of its Alma Mater. For two successive years its teams in football and basketball have won the class championships. In every branch of varsity athletics, in forensics, in high scholarship, and in practically every line of student activity, the class of '27 has its representatives. From among its beautiful young ladies was chosen the Queen of the 1925 Chilhowean.

With this enviable record behind it, the class will enter the realms of upper classdom holding always as its highest ideal, the making of a bigger and better Maryville.

The class of 1928 has already surpassed the expectations of its most ardent and ambitious adherents. The most recent, the largest and best freshman class that Maryville College has ever known, has established a name for itself in all branches of college activities. This class has done much toward perpetuating the Maryville Spirit. It has endeavored even to raise the standard of this spirit.

In athletics, the Freshmen have displayed some real ability. They had one of the best class football teams, as well as a basketball team which was runner-up for the class championship. In addition to this, the freshman class had letter men on the varsity football, basketball, baseball and track teams. They also have numerous prospects for the tennis team.

In forensics, the Freshmen are well represented, having both a boys' and a girls' team. In dual meets with the University of Tennessee, the class of '28 upheld the banner of Maryville College in a creditable manner.

This class has made a record for itself in the realms of class spirit. A greater interest in all student activities has never been demonstrated by any freshman class of Maryville College. The class of 1928 bids fair to attain its goal, the creating of a better standard of ideals of College Spirit, the maintaining of all worthy traditions of College Hill, and the hope of proving to be the greatest class in the history of Maryville College.

The Preparatory School has been gradually decreasing for the last four years. The class of '25 is the last and probably the best and most enthusiastic class that has ever gone out from Maryville. Because of the cooperation and the willing-to-work spirit on the part of the students, this class has been able to do many things which no previous class has done. Owing to the small number of boys in the class, we were unable to muster enough material for a football team. We had a fair basketball team which won all of the games played, but our schedule was not very large. Most of the old men were back for baseball and we had a good team in this pastime. For the past two years the Preparatory students have not had a track team, but this year our boys took part in this sport and developed some good track men. Along the line of social activities our class has this year enjoyed several theatre parties, banquets and mountain hikes. Our debate team was very good this year, in fact one of the best that the department has ever had.

MARYVILLE COLLEGE GLEE CLUB

The Men's Glee Club of Maryville College closed its sixth annual tour with a record number of concerts for the 1924-25 season. Never before has the Glee Club attempted so extensive a program and never before has its program been so successfully carried to completion. Singing in a vast range of subjects, the club has so succeeded in winning the various types of audiences that already return engagements are being asked for.

The season was begun with a concert in Harriman. After a lapse of two weeks the club journeyed to Athens where the second concert was rendered. The third concert of the season was given in Dandridge. After the boys had gotten "warmed up", the manager offered them a real treat in the form of a three-day trip into East Tennessee, singing in Kingsport, Greeneville, and Johnson City. The concerts given in Knoxville and on the home floor formed a fitting conclusion to a very successful season.

From the above information one can see that the Glee Club has grown to be a very large part of Maryville. Starting out six years ago with apparently not very much ahead of it, the club is now being recognized as one of the best College Glee Clubs in the South. Under the careful and patient guidance of Miss Zanna Staater, the club is going "Forward, ever forward."

As a fitting climax to the season a sumptuous banquet was served for the club. In the past, these banquets have had the name of being real, food banquets and this one was no exception to the rule. After the banquet was finished, plans for the coming year were discussed and everyone resolved to do his best to make the Men's Glee Club of Maryville College a bigger and better organization.

VARSITY LINE-UP

## EDWARD HAMILTON, Captain
### Tackle

Captain Hamilton first took his place as a member of the Highlander varsity team in '23 and since that time he has been one of the main cogs in the machine. "Ham" can play either line or back-field, but he plays line most of the time. His work at tackle for the past three years has gone a long way towards making the Highlander line a stone wall. "Ham" has set an example of clean, hard playing and he has made a good leader for the team this year.

## JOE GAMBLE, Captain-elect
### Fullback

At the annual football banquet, Joe was elected to captain the 1925 Highlander team. Joe is the product of intensive training. He has the courage to fight and to instill the fighting spirit into the rest of the team. Joe, a stellar performer at the fullback position, has been one of the most consistent players on the team. His knowledge of the game and his popularity with the squad will make him an admirable leader for the 1925 machine.

MARYVILLE CHEERING SECTION IN ACTION

## CARL SCHMIDT

### Guard

Carl hails from the "Windy City", but for the last four years he has been at Maryville, and has been in the varsity line-up for the last three years. "Smitty" knows all about the game and he has also been a stumbling block to all opposing backs who have tried to come over his side of the line. There are many things that "Smitty" can do, but his greatest work, in the opinion of his many admirers, was playing guard on the Highlander football teams.

## ROBERT THROWER

### Tackle

The name Thrower and football are synonymous terms at Maryville. "Bob" hails from Texas where he took his first lessons in the pig-skin sport. He joined the ranks of the Maryville team in 1921, won a berth at tackle, and has been the big gun for the last three years. After two years of service, he was elected captain to pilot the 1923 team through the memorable campaign when Tennessee was barely able to hold Maryville to a 14-14 draw. During the past season he not only played brilliantly but he assisted in whipping the line into a formidable wall. A fearless fighter, a splendid leader, and a clean sportsman, his name will go down in history as one of Maryville's greatest grid heroes of all time.

JUST BEFORE THE KICK-OFF IN THE U. T. GAME

## DORIS MUSICK

### End

For three years Doris has played on the varsity football teams and during all that time he has been a terror to all opponents. He has always been one of the smallest men in the line but he makes up for that in his hard fighting. His ability to put life into the team, and his own scrappy playing have made him a valuable man. He was kept out of the line-up part of the 1925 season on account of a badly twisted knee, yet he played some wonderful football in the games which he did take part in. He has played his last game for Maryville and we shall miss him next year.

## JEAN McMURRAY

### Halfback

Jean has been said by many to be "the greatest man that ever wore a cleated shoe on a Maryville team." He has played on the Orange and Garnet teams for five years, having made the team first when he was a preparatory student. Jean has endeared himself to every Maryville man and woman because of his clean sportsmanship and his ability to carry the ball through the line for long gains. The art of sidestepping all opposing tacklers seems quite natural and easy for him, and time after time he has brought the crowd to its feet by his long gains. This is Jean's last year and we surely will miss him.

MARYVILLE'S LINE HOLDS AND L. M. U. IS FORCED TO PUNT

## EARL McCALL

### QUARTERBACK

"Shorty" has played for two years at the position of quarterback and he still has two more years to call the signals. He is as fast as a flash and returning punts seems to be his favorite pastime. "Shorty" also did a great deal of punting this year and the swiftness with which he got off his punts was remarkable. He was also able to get good distance as well as height to them. With two years yet to play, "Shorty" should make a good man to represent the team.

## JOHN CRAWFORD

### HALFBACK

This is John's first year as a letter man and he has proved to be a very valuable asset to the team. His line-plunging and his deadly tackling have been outstanding in every game. His fighting spirit and true sportsmanship have won for him the admiration and support of every Maryville man and woman and the city fans as well. We are expecting great things of him in his two remaining years on the Hill because he has the qualities of a great football player.

SIGNALS! CARSON-NEWMAN GAME

## PLEDGER CARTWRIGHT

### End

"Gobo" came to us in 1923 and succeeded in making the varsity in his first year. He is an aggressive end and always gets down under punts in fine style and tackles the man in his tracks. "Gobo" is always down waiting for the man to catch the ball so he can tackle him and he has caused many men to signal for a fair catch. He is a good man on offense as well as defense. He has two more years with us yet.

## SALMON BROWN

### Guard

When "Red" first came to Maryville from New Mexico he knew very little about football, but he was willing and anxious to learn and soon he became a member of the varsity. For two years he has played some good games but the peak of his career was when he ran fifty yards for a touchdown against St. Xavier. "Red" has only one more year to show the fans how to carry the pig-skin on the hidden ball play.

McMURRAY TAKES BALL OVER RIGHT TACKLE. UNION COLLEGE GAME

## JOSH PROFFITT

GUARD

This little fellow is six feet four inches tall and weighs two hundred pounds. He played on the Honaker team first in 1922 and then was away for a year after making his first letter. He returned last Fall and took his place in the line-up, alternating at tackle and guard. His favorite pastime is plunging through the line of scrimmage to throw his opponents for losses. A giant in strength and stamina, and a fearless fighter, his playing was a feature of every battle. He has three more years to play.

## JOHN STONE

CENTER

Although this was Stone's first year at Maryville, he made a great name for himself in football circles. He is one of the coolest and steadiest centers that ever snapped a ball on a Highlander team. When he is in the game the backs need never fear a bad pass from center. With three more years ahead of him he should make one of the best centers in Southern football.

CAPTAIN HAMILTON KICKS GOAL AFTER TOUCH-DOWN. M. T. S. N. GAME

## ROBERT SHORES
### End

This gentleman came to Maryville from Birmingham in 1923 and has twice earned his letter since that time. "Pat" plays end and his chief virtue is his ability to receive and intercept forward passes for great gains. He is always down on punts, and he has played a wonderful offensive and a steady defensive game. "Pat" has one more year of service under the Orange and Garnet banner and he will be one of the important cogs in the front wall again next season.

## JAMES HOLLAND
### Guard

"Jimmie" didn't get going good until the last part of the 1923 season, but he has kept up the good work all through the past season. During the past campaign he has broken into the line-up quite frequently and at the close of the year he was one of the sixteen men to win the football "M." He has two more years at Maryville and we are expecting some great playing out of him in that time.

GAMBLE MAKES TEN YARDS THROUGH LEFT TACKLE IN MILLIGAN GAME

## LYNN McCALL

FULLBACK

Lynn's ability to carry the ball and his fighting spirit in scrimmage won for him a try-out on the varsity, where he made good. Especially do we remember his work in the Carson-Newman game where his hard tackling was the feature of the day. He also did some brilliant line plunging in this and other games this season. We are looking forward to your being with us several more years, Lynn, and we expect you to do some great playing for us.

## TINKER FRANKE

HALFBACK

Tinker comes from the "Buckeye" state and he did his prep work at Milford. He entered Maryville in 1923 and succeeded in making the varsity team the first year, a thing which very few are able to do. Tinker is especially adept at the art of intercepting forward passes, and in the Tennessee game he made several brilliant gains in this way. He is also good at carrying the ball and in playing defense.

BETWEEN HALVES. CARSON-NEWMAN GAME

# Football Squad

REVIEW OF THE SEASON

It can not be denied by anyone that Maryville had one of her most successful seasons in football this year. The success of the team cannot be laid on any one player in particular, but the team was composed of eleven men who never stopped fighting until the last gun was fired, and this accounts for the great season. Perhaps the greatest factor in the success of the Highlanders was the excellent physical condition of the entire squad. Not a single serious injury was encountered during the whole season, and not a single team which they met were their equals in physical condition. They were always able to stage a comeback in the last half, after a strenuous first half. The Union College and the Lincoln Memorial University games gave the boys a chance to show their skill and ability. After these two games came the Tennessee game, where Maryville failed to get going in the first half and lost the game. During the second half the Highlanders came back strong and outplayed the Tennessee team, but the lead was too great to overcome. Perhaps the greatest game was played against the St. Xavier team at Cincinnati. During the first half our boys solved the offensive tactics of the Catholics, and in the second half they uncorked a series of plays that netted three touchdowns in rapid succession. The final game of the season was played against Roanoke College in Salem, Virginia, and ended in a 3-3 tie. In this game they demonstrated their superiority in many ways but they were unable to score. Four men, McMurray, Thrower, Musick, and Schmidt, will be lost thru graduation. All of these men are considered as very important cogs in the Highlander machine, and their services will be sorely missed.

## REVIEW OF THE SEASON

Lombe S. Honaker - - - - - - - - - - - - - - - - *Coach*
Lewis Veech - - - - - - - - - - - - - - - *Captain*
Joe C. Gamble - - - - - - - - - *Manager*

Looking back over the cage events of the season we find that at the beginning Coach Honaker had, besides six letter men, a vast amount of new material which had had a great deal of experience in high school. Maryville started off the season with a rush by decisively defeating the Johnson Bible College team. This game gave the coach a chance to try out some of the new material and it also showed that the Highlanders were to have another real basketball team. Coming back after the Christmas holidays, the team was soon whipped into good condition for the campaign which was to follow.

One of the most exciting games of the season was the one with Tennessee when the Orange and Garnet team trounced the Vols by the score of 29-21. In this game the Highlanders were in the lead most of the time. They showed some of the best defensive work of the year in this game.

Another very exciting game was the one with Crimson Tide from the University of Alabama. Although the Highlanders lost this game, it was a much closer affair than the score would indicate. This was another game in which the Maryville team did some superb guarding.

Perhaps the best game on the road was played against the Emory and Henry team, at Emory, Virginia. In this game Maryville was equally good on offense and defense which won for her the distinction of being the best team that had faced the Wasps. The season ended with a decisive victory over the East Tennessee State Normal, the team which had won from the Highlanders earlier in the season. The Maryville team scored at will, while the Normalites were powerless.

With six letter men returning next year and with the abundance of new material which will show up in the Fall, Maryville should continue her brilliant record of the last three seasons.

### LEWIS VEECH, Captain
Guard

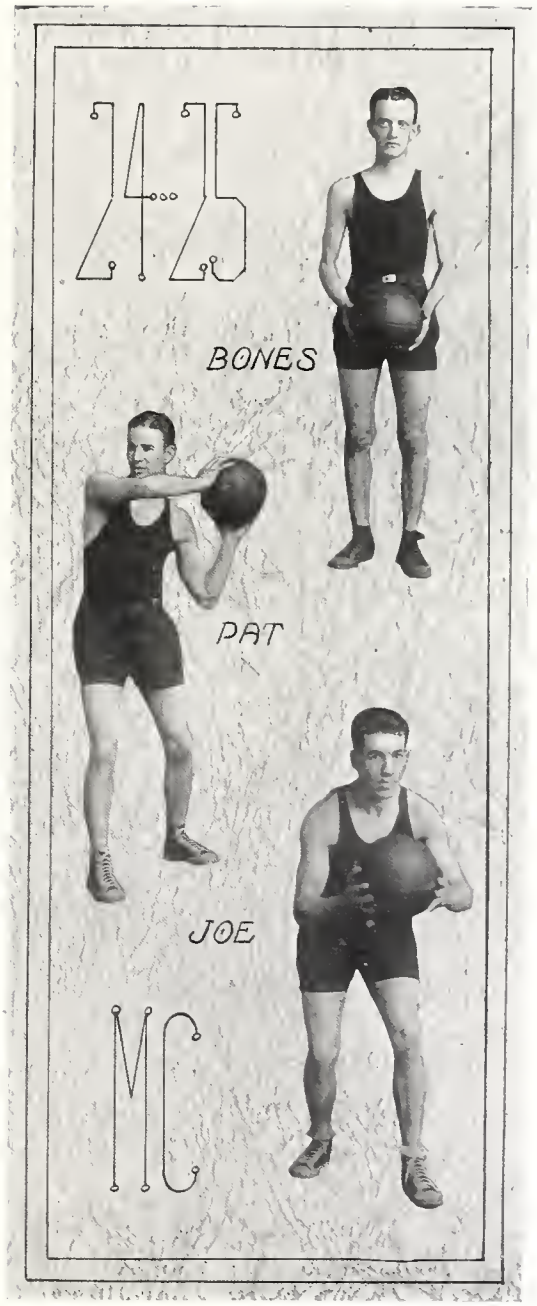
"Bones" after having played on the team for two years was elected to captain the 1924-25 Highlanders, which position he filled with merit. During the whole season his playing was characterized by such guarding as is very seldom seen on a basketball court. Veech is a hard fighter and a real leader. He is an accurate passer and one who has the ability to promote team-work. His close guarding accounts for the few goals which his opponents have made. He seemed to hit his stride in the Alabama game and in the Tennessee games, holding his opponents to a very low score. Veech will be with us another year and we expect the same good playing that is so characteristic of him.

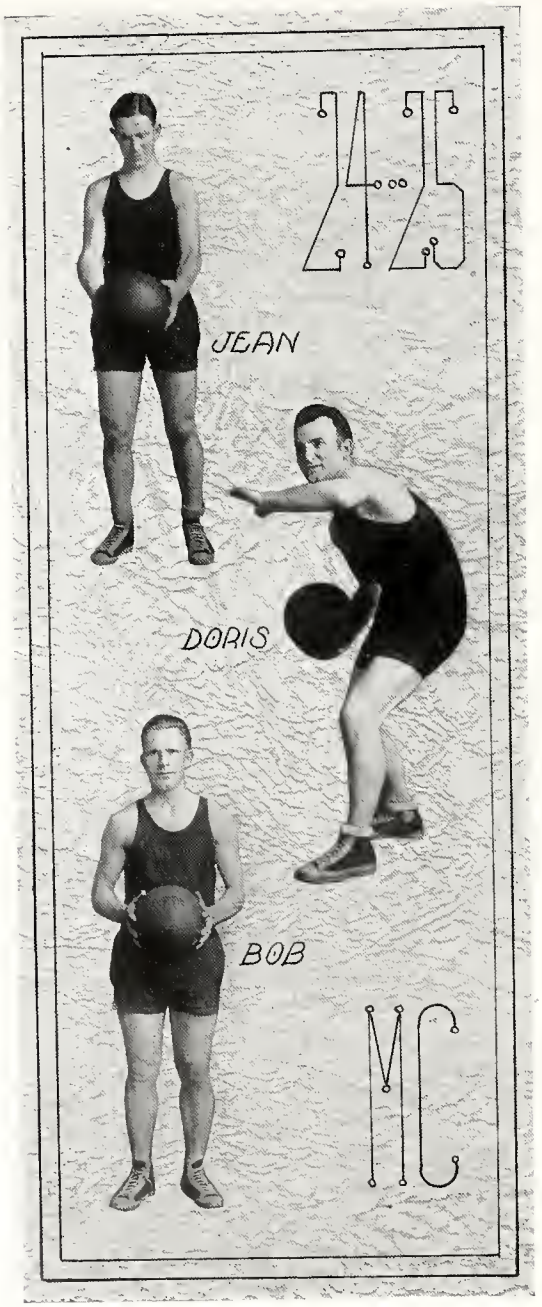
### ROBERT SHORES, Captain-elect
Forward

"Pat" has just finished his second year on the Highlander team and has been selected to lead the team next year. His playing this year shows a decided improvement in team-work. His material contribution is his excellent passing, yet his ability to shoot goals has meant much to the team. He is one of our best floor men as well as an accurate shot. He is very popular with the fans and the team alike and as captain of next year's team "Pat" should lead Maryville through one of the best seasons that she has ever known.

### JOE GAMBLE, Manager
Guard

"Jo Jo", our efficient manager, played a hard and consistent game during the entire season. He has a specialty of intercepting long passes and he has the eye of an eagle when it comes to getting into the right place at the right time. Joe has developed into one of the best defensive guards that Maryville fans have ever seen. He is equally good on offense and accounts for a great number of points. On several occasions he was called upon to fill the center position, which he did creditably.





## JEAN McMURRAY

### Center and Forward

Jean has just completed his fifth year on the Highlander team, having made a letter when he was still in the Prep department. He has been high point man for the last three years through his ability to mark up two points just when it was necessary. Jean's regular position is forward but he was forced to play center most of the time during the last two years. He can play either position almost equally well. Probably the outstanding feature of his career is the time when he scored two goals in twenty seconds against Transylvania. Due to the fact that he is a Senior this year we will lose one of the cleverest men in the history of basketball at Maryville.

## DORIS MUSICK

### Guard

"Dorsel", in spite of the fact that he was badly handicapped by an injured knee, played a bang-up game whenever he was able to take part in the fray. He is one who certainly puts the fight into the team when he is on the floor. No matter how good the other team was, "Dorsel" was always able to put the clamps on them. He has played on the team for four years and during this time he has helped to develop a higher class of basketball at Maryville. His absence will be noted more acutely next year because he has rounded out his four years of service for Maryville.

## ROBERT THROWER

### Center

Bob succeeded in making a letter this year by substituting for center in a sufficient number of games. Bob starred in the last games of the season and in the final game against the Normalites he emerged from the fray as high point man. He is a shining example of perseverance because he never gave up hope of making the team until he had made it. He plays just as hard a game as he does on the football field and that is a great credit to him. Bob has played his last game for "Old Maryville" because he is a graduate this year. We will miss him next year when basketball season rolls around.

## EARL McCALL

### Forward

"Flash" McCall has won this title because of his speed on the floor. He is one of the fastest men on the team and his speed accounts for the breaking up of many of the opponents' plays. He seems to have found his place at forward where his natural aggressiveness has made him a very valuable man, especially in dashing through to break up plays. His bursts of speed and his method of play have won for him the admiration of all the fans. He works hard to uphold Maryville's standard of excellence.

## LEWIS REED

### Center

"Sheik" Reed, the "Lorain Cyclone", has just played his first year at Maryville and put up a stellar game whenever he was injected into the fray. He played center most of the time, but he can play either forward or guard. "Louie" played one of his best games against the Tennessee Vols in the second meeting, where he showed plenty of fight and accounted for two goals in the short time that he was in the game. During his next three years he should make one of the best basketball men that ever played on an Orange and Garnet team.

## MALCOLM THOMSON

### Forward

"Trouble" is a name which well describes Malcolm, because of his ability to make trouble for his opponents by making long and difficult shots. In the last season's campaign he has given such a good exhibition of his playing that he made some of the other men work for their places on the team. "Tommy" played his best game against the Chattanooga Rail-lites. He has the most accurate long shot on the team and time and time again this has caused trouble for the opposing team. During the next two years we are expecting him to develop into a forward capable of filling a place on the Celtic team.

The "Highland Lassies" met some of the best teams in East Tennessee this season. Their schedule included three games with the University of Tennessee co-eds, and with such other teams as East Tennessee Normal and the Knoxville Y. W. C. A. team. On their trip the "Lassies" played Peabody Teachers' College, T. P. I. and Middle Tennessee Normal and they gave good accounts of themselves in all of these games. In finishing up the season in good style the team went over and swamped the U. T. girls and then later won a game from the strong Stonewall Jackson team. Those receiving letters this year are: Captain Painter, Manager Farrar, Heiskell, Kessinger, Kellar, Cooper, and Hipp. Through graduation we shall lose Painter, Farrar, Heiskell, and Kellar.

With such College diamond stars as Captain Williams, Partee, Sneed, McCall, Shanks, and R. Williams returning along with some new material, the 1924 Highlander team was expected to enjoy a winning season. Coach Honaker's team seemed to have got off on the wrong foot and lost the first four games of the season, two of which were lost to the University of Tennessee, as the old Vol jinx still prevailed. The slow start was probably due to the unkindness of J. Pluvius, as six games and nineteen practices were rained out during the season.

Only one long trip was taken and on this trip the team met L. M. U., Union College, Kentucky State, Centre, and Harriman. Probably the best game of the season was played on this trip when Roger Williams let the fast Kentucky State aggregation down with three hits, the Highlanders winning 3-0. He very nearly duplicated this feat on the home ground by allowing the same team only one bingle while the Highlanders secured enough hits to win the game by the score of 7-1. On the trip the famous Centre College Colonels were barely able to nose out a 5-4 victory in the ninth inning.

The redeeming features of the season were the brace won from Kentucky State, together with games won from Cumberland and Union. The following men were awarded the baseball "M" for the season of 1924: Captain B. Williams, Manager Gamble, R. Williams, Harvey, Shores, Hurst, McCall, Partee, Franke, McMurray, Sneed, and Cartwright.

Track and field sports are just beginning to take their rightful place in Southern College athletics. To say merely that this branch of sport is on the incline at Maryville, is putting it much too mildly.

Pictured above is only the nucleus of a very much larger group of cinder path artists, probably numbering about fifty, who aspired for Maryville winged honors during the 1924 season.

The principal meets of the year were dual meets with the University of Tennessee, Georgetown College, and Centre College, although no little rivalry and enthusiasm was in evidence as men dashed, strove and endured for the silver cup of the Y. M. C. A. class meet.

Our strongest events this year were the distance and middle distance events on the track, coupled with the weight events on the field. However, we were usually able to carry enough other events along with second and third places to make our opponents sit up and take notice. In both the University of Tennessee and Centre College meets, the winner was not determined until the last event of the meet was over.

The men receiving the Maryville winged "M" were: Captain Templin, Manager Brown, McMurray, Bishop, King, Kinsler, Thrower, Robinette, Milling, Thomson, and Morgan.

# Athletics at Maryville 1924-25

By Coach Lombe S. Honaker

In summarizing the athletic activities of the year most of us are interested in a summary which will bring to our minds in future years some of the pleasures and pains of mind and body, which have been experienced in the victories and defeats of our teams, for to many of us our team is our fame. As the present swiftly changes into the future we shall muse with pleasure on the gridiron, the court, the diamond, and the track, thinking of the great battles won and lost and the training received there.

The year 1924-25 as a whole has been one of the very best, if not the best ever experienced by Maryville College. The football season opened with fair though not brilliant prospects, but turned out to be a great season. Opening with a weak team, the Orange and Garnet was carried to a 103-0 victory for the largest recorded by any college for the whole season. Then came the 35-0 victory over Lincoln Memorial University the following week, thus ending the practice games.

With more interest and excitement than ever before the practice for the annual U. T. game was continued and everything was pointed for a great time in Knoxville on October tenth. Maryville was defeated by the score of 28-10 before the largest crowd that ever witnessed a Maryville-U. T. game. In spite of the defeat, Maryville followers had the pleasure of seeing Captain Hamilton begin the scoring by a perfect place-kick from the forty yard line, and later saw the ball carried across the goal line by straight line plays, which with the point after touch-down made a total of ten points for Maryville. Next came the herd of Buffaloes from Milligan College with their famous players, student body, faculty, and "Georgia Tech Shift." Everything started out in fine style and the Buffaloes were playing fine football, but some of the rough Highlanders became excited and tackled some of the flying Buffaloes who in turn stampeded, but before they were able to head off the Highlanders they had scored 30 points to their opponents 7. Thus ended a bad day for them and as the Milligan College paper put it, "the less said about the matter, the better."

The next and perhaps the best game of the year was with the strong St. Xavier team at Cincinnati. Playing on a fine field and before a large crowd, the Highlanders showed their real football form by defeating the Irishmen 27-6.

On November first, Middle Tennessee State Normal came to Maryville and flashed a much stronger team than had been expected, but were defeated 28-0.

November eleventh came along and Armistice Day was celebrated in a very fitting manner, but not without a battle, for on that day the "Fighting Parsons" came down and we had a battle, the like of which had not been seen in Maryville. A great crowd was there to see a great game and no one will deny that he saw a great game. I consider it the greatest game that I have ever seen between teams of small college class, if these teams can thus be classed. The Highlanders were defeated but put up a great game against odds.

The final game of the season was played on a wet field in Salem, Virginia, against Roanoke College and resulted in a 3-3 score. In snite of the fact that Roanoke had a brilliant record for the season they were clearly outplayed by the Highlanders in every department of the game, having the ball in Maryville territory only twice during the game. This game closed the season of 1924, of which every Maryville supporter can be proud.

The basketball season was a good one although probably disappointing to some students and followers because of the fact that Maryville had not lost a home game for more than two years and they had hoped that this string of victories would continue, but fortune was not so kind and we lost two home games this season, one to the strong University of Alabama team and another to Cumberland University by a two point margin. Our friendly rivals from the University of Tennessee again contributed a victory to the Highlanders on the home court, and of course there is as much pleasure in defeating them as any team on the schedule, for there seems to have developed a real rivalry and keen interest in these games. Two games were lost to Tennessee on her court, one to East Tennessee State Normal in Johnson City by the score of 21-20. This was the famous game in which not one foul was called on the Normal team during the whole course of the game. We were also defeated by the Chattanooga Rail-lites on their court, making a total of six games lost for the season, five of them being university and professional teams.

Baseball opened up with a lot of new material attempting to fill the places left vacant by Baxter and Roger Williams. Hurst, Partee, Sneed, and other stars from last season's squad. With prospects only fair, the season opened by dividing a two game series with Ohio State University. The Highlanders won the first 5-4 and lost the second game 3-0. At the time of this writing the Maryville-U. T. series stands with a victory for each team, the third game to be played in Maryville. The Highlanders also showed some good baseball by holding the Knoxville team of the South Atlantic League to a 10-8 score. The first trip was not so successful as they won one game and lost the other three by a margin of one run each. The prospects are still good in spite of the losses.

Track is rapidly coming into its own at Maryville and each year finds more interest in the sport and a greater number taking part. Our greatest handicap has been the lack of a good track and of competition, since very few colleges in this section have attempted to promote track work. The schedule included four dual meets, the first one being a victory for the University of the South at Sewanee. Then followed our annual meet with Tennessee which was lost by the small margin of six points. The Highlanders won the meet with Georgetown College at Georgetown, Kentucky, by the score of 59 1-2 to 57 1-2. The last meet of the season was held with the University of Chattanooga at Maryville and resulted in a victory for the Highlanders 89 to 28.

On April eighteenth, Coach Bond took a relay team and one man for the shot put to the Tech Relays in Atlanta, where they met the best the South had to offer in track. The medley relay team won fourth place while Thrower won second place in the shot, losing first place by only a few inches. The relay team was composed of King in the half, Brown and Thomson in the quarter, and Templin in the mile.

It is very evident that in a few more years Maryville will be one of the leaders in track as well as in other branches of athletic competition, for interest is increasing and students are being educated to the fact that track is one of the finest of all the sports.

The most encouraging fact of all in reviewing athletic progress at Maryville for the year is the finding that athletes are coming to Maryville without financial inducements and that the scholarship is above that of the average student, indicating that the athletes are students and the students are athletes. Maryville has not attempted to startle the world by producing teams far above her class, but has been content to build gradually and naturally and in such a way that no finger of suspicion can ever be pointed at her athletes or athletic policies.

*For when the Great Scorer comes*

THE YEAR'S ACTIVITIES

The Alpha Sigma Literary Society has completed one of its most successful years. Great hopes were voiced last September and most of these have been fulfilled. Numbers of the freshman class have been added to the roll of the society and a large percentage of these are already seeing active service in the field of oratory, music, debate, reading, and public speaking. Practically everyone has taken part in one or more programs. Two joint meetings have been held with the Theta Epsilon, our sister society. These were the most popular meetings of the year, and both societies took part in the program. The Alpha Sigma gave as its Mid-Winter "Three Wise Fools." The following composed the cast: Messrs. Dunn, Eitner, Kinsler, Gauding, Allen, Lockhart, Blough, Jeffries, Crowder, Hammond, and Broomall, assisted by Misses Sossomon and Harrison of the Theta Epsilon Society.

Debates have been given on such subjects as Evolution, Fraternities, and Ku Klux Klan. The oratorical contest was held and much interest was manifested in it. Wick Broomall, Jr., was the winner, while Nathaniel Patterson and William Rogers won second and third places respectively. One of the most important achievements of the year was the revision of the constitution of the society. This had long been thought needful. The following men leave the society by way of the graduating route: Griffitts, Gauding, Kinsler, Templin, Broomall, Thrower, Schmidt, and McMurray.

The fourth term officers are as follows: Broomall, president; Cook, vice-president; Wheatley, program secretary; Gaines, recording secretary; McTeer, treasurer.

# The 1925 Chilhowean

Our work is done. Only this sheet remains to be marked and numbered. As we pause for reflection we find ourselves in the midst of mistakes we have made, and some things have been left out which we have not had space to include in this volume. We began our work with ideals and aspirations, but the hard knocks of business and editorial worries has shattered most of them. What The Chilhowean might have been if we could have kept our ideals, only our dreams can tell. What we present in this volume is for your judgment.

We would not have you think that this book was conceived in pain and drudgery for never has a work been so cheerfully and willingly done. It has been a rare and fascinating experience and privilege to the staff. We have thought of this book as a mouthpiece through which should speak the spirit of

Old Maryville. We have endeavored to "tune in" and catch the voice of that spirit and then plan the work to transmit it into the pages where it will serve as a source of pleasure and joy to the student,—serving as a medium through which he may live again the experiences of his school life after our happy days here are ended.

In these lines the staff wishes to extend its appreciation to those students who have not been connected with the staff, but who have so unsparingly given their time, thoughts, and energy for the success of the book.

We have worked in the hope that in the 1925 annual the standards of The Chilhowean should not be lowered, but rather increased, thus making it the best edition yet.

Our work is done. May you read The Chilhowean with as much happiness as we have found in its creation. May it mean to you—Maryville.

EX OFFICIO MEMBERS

The Dumb Bells who waste our time by turning in lists of names "just any old way" when we ask for them alphabetically.

The Dead Beats who waste our time trying to collect on their wooden checks.

The Boobs who think that when we ask for copy on a certain date, that it means some time in 1935.

The Fizz who comes around two months after the Junior and Senior panels have been closed and wants to get his picture in.

The Gink who rushes in after all the copy is made up and says that he forgot to turn in the names of half his club members.

The Co-ed who holds up her section and says she didn't know she has to return her photographer's proof.

The Crew which would raise the deuce if their pictures were not in the book and who set up an awful howl when the staff comes around to take pictures.

The Guy who won't buy a book, refuses to co-operate to make it the kind of book he wants, but just as soon as it is out he starts knocking.

The Bunch which turns in copy on the assumption that the staff is composed of mind readers and handwriting experts. With such an able lot of assistants, editing The Chilhowean is truly a pleasure.

Cornelius—"What is the penalty for bigamy?"
Gamble—"Two mothers-in-law."

Smitty (on math exam)—"How far are you from the correct answer?"
Speck—"Two seats."

Ditto—"Oh, Clyde, such extravagance! At four o'clock in the afternoon you buy an all-day sucker."

Miss Jewell—"Mr. King, what do you know about Louis' XIV time?"
Jimmy—"Nothing, I didn't even know he was out for track."

We editors may dig and toil,
Till our finger tips grow sore,
But some poor fish is sure to say,
"I've heard that joke before."

# The February Meetings

The College is indeed most fortunate and happy in being able to number among its alumni four ministers who are so evangelical in their faith, and so evangelistic in their fervor as Rev. E. A. Elmore, D. D., of Chattanooga, Rev. Edward Marston, D. D., of Cincinnati, Rev. W. T. Bartlett, D.D., of Chattanooga, and Rev. Joseph M. Broady, D.D., of Birmingham. In every four years each of these consecrated men conducts one of our annual February Meetings. While they differ greatly in matter, manner, and method, they are all alike in possessing strong and attractive personalities, and in being animated by his high and holy purpose of winning men and women to Christ. Hard of heart must be the student who can pass through his College course without having responded to the appeals from one or the other of this great quartet.

The forty-eighth of these unique and inspiring meetings was this year conducted by the Rev. W. T. Bartlett, D. D., of Chattanooga, and he was ably assisted by the Rev. Sidney E. Stringham, also of Chattanooga, who led the song services in a most acceptable and helpful manner. Dr. Bartlett's messages were exceedingly clear, convincing, and effective. He made the way of salvation very plain, leaving no room for doubt as to each one's high privileges and imperative duty, and very wisely emphasized the necessity for each one's deciding calmly, thoughtfully and sincerely, for himself what his action should be. The final meeting of the series was one of the most impressive ever seen on the Hill. The cumulative force of the strong and faithful preaching, continued, importunate praying, and quiet, personal working was then revealed in the breaking down the barriers of hesitation and procrastination which had been holding many back, and more than fifty young men and women willingly walked down the Chapel aisles and gave their hands to Dr. Bartlett and their hearts to God. None who was present will ever forget the joyous thrill of that momentous hour! Only eternity can make known the full results of such a series of uplifting, spiritual meetings, but more than fifty put themselves on record as having begun the Christian life, and upwards of three hundred and fifty renewed their Christian vows of allegiance and loyalty.

## ADVICE TO MODERN GIRLS

To grow old gracefully, avoid henna, flapper fashions, kittenish manners, too youthful swains, and patronizing solicitude toward women of your own age.
